### Hefel Wellness Allergic Comforter

#### Active night time protection for allergy sufferers.

The specially developed 4-hole Vitasan hollow fiber used in Wellness Allergic quilts provides effective protection against every type of allergy. The fibers are impregnated with a substance that actively prevents the spread of house dust mites, bacteria and fungi. It also curtails the living space of existing microorganisms by disrupting their food supply.

Allergy sufferers can breathe a sigh of relief and sleep soundly. Due to their 4-hole form Vitasan hollow fibers are exceptionally- light and actively breathable and the filling can store a particularly large amount of warm air.

Retail Price: \$ 626 Requested Quantity: 1
